

What is MotiXeed®?

MOTIXEED® is a simple, safe, and effective way to support male reproductive health and sperm quality by providing the nutrients needed for developing sperm.

MOTIXEED® is a citrus-flavored powder supplement that can be dissolved in juice or other cold beverages, taken twice a day. MOTIXEED® should be taken for six months, although initial improvements in sperm quality may be seen after three months. *This is because sperm require an average of 74 days to mature, and up to 20 additional days to become capable of fertilization.

How does MotiXeed® work?

MOTIXEED® contains clinically proven ingredients and also includes an antioxidant complex for protecting sperm from free radical damage as well as additional nutrients for enhancing sperm formation and maturation. MOTIXEED® is a nutritional supplement that contributes to a man's overall reproductive health when he's trying to conceive.

PROUDLY MADE IN USA

MOTIXEED® contains clinically proven ingredients and also includes an antioxidant complex for protecting sperm from free radical damage as well as additional nutrients for enhancing sperm formation and maturation. **MOTIXEED®** is a nutritional supplement that contributes to a man's overall reproductive health when he's trying to conceive.
